Another Soviet, who was a member of a committee the USSR has established to investigate unusual phenomena, in other words, flying saucers, gave a serious talk which was actually very humorous. His approach was, "Well, of course, we know there isn't anything to this alleged phenomenon (flying saucers), but on the other hand---." During this talk [redacted] and other Soviets joked and laughed and obviously did not take the speaker's remarks seriously. [redacted] remarked later to [redacted] that the "flying saucer committee" consists of many politicians, theorists, historians and similar type people. It has little if any scientific talent.
